Fiery Obsession:

Fiery Obsession Lynne Blackman,1986-08-01 **Fiery World** ,1978 *New Wests and Post-Wests* Paul S. Varner,2013-10-03 The writers of these chapters are often working with changing assumptions about literary and media interpretations of an American West Here we see critical approaches to a West that never was a West of myth so enduring that the myth dominates nearly all artistic representation about this place that never was In this collection we see critical approaches to a New West a West that is a state of mind not a geographical place but a mythic space with no boundaries and no political inevitabilities These New Western studies accept the idea of a West that includes Canada Mexico Alaska and in the case of the US every geographic and historical point west of the historic founding settlements The West we study today is a post West an idea of the West past the traditional views of an old West dominated by white US nationalism and gendered as uncompromisingly masculine The idea itself of a single West no longer holds validity We now understand that all renderings of the West are renderings of multiple Wests Wests constructed by American nationalists Wests constructed by EuroAmerican writers and filmmakers Wests constructed by native peoples or Wests constructed outside the geographical boundaries of the US This collection presents an eclectic array of new scholarship ranging freely over the New Wests and Post Wests dealing with issues such as the literature of a 1950s California West eco crime genre fiction the West of Edward Dorn and the Beat Movement images of prostitution in California Gold Rush literature European perspectives on film representations of the first peoples the six shooter and the American West German Westerns and Italian Westerns The Authentic Death of Hendry Jones by Charles Neider and films such as The Treasure of Sierra Madre Into the Wild There Will Be Blood and The Last Picture Show A unique aspect of this collection is the range of writers interpreting the American West in film and literature besides those writing from within the United States five of the writers provide international perspectives from the United Kingdom and the Universities of Tunis Vienna and Rome Each chapter includes a review of scholarship on its subject and an extended bibliography for further research **REMODEL YOUR SOOTHSAYER** JAYANTA BHAUMIK,2018-12-26 Remodel Your Soothsayer is not about why you should or should not believe in astrology or any subject dealing in predictive faculties This book has tried to document the fact that the way you respond to the perception of the unseen can very much be extended or expanded through other far easier more comfortably active logical sets already present in you creating thus a useful stress free relation between you and the riddling awe for the unseen The book has tried to search how the prefixed factors can be seen waiting to be unravelled and accepted with some interesting flexibility of reasonings Which ultimately should help develop the very sense that the tenet of destiny does no way encourage man s limitational thought for life world or himself **The Magic of Fire** Alina Rubí ,2026-02-09 This book is a practical and spiritual guide that teaches you how to work with the energy of fire through a mature emotional and symbolic lens Through clear rituals and ancestral practices adapted to modern life you will learn to use flame as a tool for healing protection love
