Fifth Window

Darrell W. Johnson

Fifth Window:

Supreme Court , The Verses Formerly Inscribed on Twelve Windows in the Choir of Canterbury Cathedral ,1901 **Discipleship on the Edge** Darrell W. Johnson,2004 Revelation is probably the most read but least understood book of the Bible History is replete with examples of how not to interpret it and books featuring end of world prophecy claims based on Revelation consistently top the bestseller lists But how can the message of such an enigmatic book be applied to our lives today In *Discipleship on the Edge* Darrell W Johnson drives home the challenging and practical message of Revelation in thirty carefully crafted sermons Paying careful attention to the original context of Revelation and the circumstances surrounding its composition Johnson shows that the book is not a crystal ball but rather a discipleship manual Thoroughly researched and yet accessible this collection of sermons is a helpful resource for pastors and small group leaders who are looking for models to help them preach and teach the message of Revelation in a time when there is much confusion about the end times Darrell W Johnson serves as Scholar in Residence at The Way Church and Canadian Church Leaders Network in Vancouver British Columbia Canada A popular conference and retreat speaker he has also served as the preaching pastor for a number of congregations in North America and the Philippines as well as serving as Adjunct Professor of Preaching for the Doctor of Ministry program at Fuller Theological Seminary in Pasadena California and a Teaching Fellow at Regent College His other books include *Experiencing the Trinity* and *Fifty Seven Words That Change The World* *Physiology and Pathology in the Perinatal Period* R.H. Gevers,J.H. Ruys,2012-12-06 The course of history is never one of smooth progression Periods of relative quietness are interrupted by periods of wars and revolution This pattern resembles that of a river which before flowing into the delta has to pass countless rapids The same holds for the development of the science of medicine In obstetrics some of these revolutions or rapids consist of the introduction of conservative obstetrical treatment by Lucas Johann Boer at the beginning of the nineteenth century the discovery of the cause of puerperal sepsis by Oliver Wendell Holmes and Semmelweiss between 1843 and 1847 the introduction of the principle of asepsis by Pasteur in 1874 the introduction of prenatal care at the end of the nine teenth and the beginning of the twentieth century Mijnlieff Treub De Snoo the improvement of surgical techniques the possibility to treat shock by bloodtransfusion and finally the acquisition of new means for the effective therapy of infection All these developments have led to a sharp reduction of maternal and perinatal mortality In this connection it must be pointed out that such a reduction could never have been accomplished without the favourable social changes as a result of which medical and prenatal care could be made universally available In recent years there has been another revolutionary develop ment in obstetrics Two factors have been responsible for this the ap plication of basic sciences in obstetrics and the dissolution of the isolation with respect to other clinical disciplines *Bulletin* ,1917 *The City of Chartres* Henri Jean Louis Joseph Massé,1900 *The Builder* ,1875 **Collectanea** Charles Robert Leslie Fletcher,Montagu Burrows,1905 *The Architectural History of the University of Cambridge, and of*
