## **Disrupting Anti-Black Racism in Early Childhood**

**Settings** Kerry-Ann Escayg, Beverly Jean-Daniel, 2025-09-18 This edited volume draws from a special issue published in the Journal of Curriculum Teaching Learning and Leadership to explore children's perceptions, experiences, and handling of anti-racism approaches in the contexts of teaching, learning, and parenting. Often marginalized and overlooked in the renewed vigor for racial justice is the lived experience of young Black children, with a critical focus on the unique ways anti-Black racism theorizing can shed light on innovative pedagogies and other practices aimed at improving their quality of life and early years experiences. By drawing on a diverse body of theoretical scholarship including anti-racism and critical anti-Black racism, the authors not only bring much-needed perspectives on racism in relation to young children's daily lives but also discuss teaching and parenting practices as sites in which young children can ultimately adopt anti-racist beliefs, recognize their agency, and develop as global citizens committed to justice and racial equity. This text, one which builds on and expands the special issue, anchors Black epistemologies, focuses on the unique experiences Black children encounter in their larger social contexts, as well as ECE settings, and provides institutional and pedagogical strategies that center and amplify Black humanity and agency. With a balance of conceptual and empirical chapters, the book provides a timely and interdisciplinary theoretical and methodological analysis of children and race. It will appeal to scholars and researchers working in fields across Early Childhood Education and Child Development concerned with issues of Diversity, Equity, and Social Justice.

Colormute Mica Pollock, 2009-04-11 This book considers in unprecedented detail one of the most confounding questions in American racial practice: when to speak about people in racial terms. Viewing race talk through the lens of a California high school and district, Colormute draws on three years of ethnographic research on everyday race labeling in education. Based on the author's experiences as a teacher as well as an anthropologist, it discusses the role race plays in everyday and policy talk about such familiar topics as discipline, achievement, curriculum reform, and educational inequality. Pollock illustrates the wide variations in the way speakers use race labels. Sometimes people use them without thinking twice; at other moments they avoid them at all costs or use them only in the description of particular situations. While a major concern of everyday race talk in schools is that racial descriptions will be inaccurate or inappropriate, Pollock demonstrates that anxiously suppressing race words, being what she terms colormute, can also cause educators to reproduce the very racial inequities they abhor. The book assists readers in cultivating a greater understanding of the pitfalls and possibilities of everyday race talk and clarifies previously murky discussions of colorblindness. By bridging the gap between theory and practice, Colormute will be enormously helpful in fostering ongoing conversations about dismantling racial inequality in America. **Race and**

**Colorism in Education** Carla Monroe, 2016-12-08 As one of the first scholarly books to focus on colorism in education, this volume considers how connections between race and color may influence school-based experiences. Chapter authors question

how variations in skin tone as well as related features such as hair texture and eye color complicate perspectives on race and they demonstrate how colorism is a form of discrimination that affects educational stakeholders especially students families and professionals across P 16 institutions This volume provides an outline of colorism s contemporary relevance within the United States and shares considerations for international dimensions that are linked to immigration refugee populations and Canada By situating colorism in an educational context this book offers suggestions for how educators may engage and confront this form of discrimination

connections are essential to measure and assess their actual or potential effects on foreign policy or conflict This unique resource serves both qualitative and quantitative researchers For ease of use it is divided in sections for each region of world with the entries organized by pairs of contiguous countries Each entry for a pair of countries briefly discusses the ethnic and religious groups that are common to both countries and the historical and current connections between these groups The entries are organized based on the Correlates of War country codes which are widely used by researchers and allow for country pairs to be organized geographically within each section to facilitate easy use of the data

Latino Homicide  
Ramiro Martinez, Jr.,2014-10-24 Latino Homicide is the first empirically based but readable book for courses to counter the conventional wisdom that immigrant populations only contribute crime to their communities For this second edition Martinez further emphasizes his argument with updated data and the addition of a new city San Antonio With fascinating case studies from police reports and actual cases from six varied cities Latino homicide rates are revealed to be markedly lower than one would expect given the economic deprivation of these urban areas Far from dangerous or criminal these communities often have exceptionally strong social networks precisely because of their shared immigrant experiences Martinez skillfully refutes negative stereotypes in a coherent and critically rigorous analysis of the issues
