 collecting them no one knows more about British and American proverbs than he The present volume based upon writings in  
 British North America from the earliest settlements to approximately 1820 complements his and Archer Taylor s Dictionary  
 of American Proverbs and Proverbial Phrases 1820 1880 It differs from that work and from other standard collections  
 however in that its sources are primarily not literary but instead workaday writings letters diaries histories travel books  
 political pamphlets and the like The authors represent a wide cross section of the populace from scholars and statesmen to  
 farmers shopkeepers sailors and hunters Mr Whiting has combed all the obvious sources and hundreds of out of the way  
 publications of local journals and historical societies This body of material because it covers territory that has not been  
 extracted and compiled in a scholarly way before can justly be said to be the most valuable of all those that Whiting has
