Current Issues in Industrial Economic Strategy Keith Cowling, Roger Sugden, 1992 Principles of Economics Alfred Marshall, 1925 Economic Strategy and the Labour Party M. Wickham-Jones, 1996-11-26 *Economic Strategy and the Labour Party* examines the nature and development of the Labour party's economic policy between 1970 and 1983 Drawing on extensive archival research Mark Wickham Jones analyses the radical nature of the new proposals adopted by the party in 1973 and charts the opposition of Labour's leadership to them The resulting disunity was the central cause of leftwingers demands to reform Labour's constitutional structure and of the party's election defeat in 1983 Mark Wickham Jones assesses the nature of Labour's social democratic objectives and the organisational structure of the party In the Epilogue he provides a detailed account of the internal reforms under Neil Kinnock's leadership of the party which have helped to secure the foundations of Labour's electoral recovery since 1983

Principles of Economics, an Introductory Volume Alfred Marshall, 1930 **Japan's Economic Strategy in Brazil** Leon Hollerman, 1988 **The Labour Party's Economic Strategy, 1979-1997** R. Hill, 2001-09-26 The book considers Labour's economic strategy as it developed through the party's long period of opposition between 1979 and 1997 This history argues strongly that accounts of Labour's recent past which claim that the Party was driven by a combination of Thatcherism and opinion polls are flawed It offers an alternative account which stresses the importance of debates within and around the Party about how the economy should be understood the role of markets and the state and British industrial decline

The Socialist Ideas of the British Left's Alternative Economic Strategy Baris Tufekci, 2019-11-30 This book provides the first book length study of the political and economic ideas of the British left's Alternative Economic Strategy in the 1970s and early 1980s Discussing the AES's approaches to capitalism the nation state and the working class it argues that existing academic accounts have significantly overstated the radicalism of the strategy Perhaps more notable especially in the light of its stated revolutionary aims was the extent of its moderation its continuities with post war Labour revisionism its marked reluctance to look beyond the market economy the degree of its preoccupation with Britain's global economic status and its inability to break with Labourist politics of class co operation in the national interest While the book argues that the AES was the last class politics socialist initiative in mainstream British politics it also explores the ways in which its ideas perhaps prepared the way for New Labour in the 1990s and its relationship with Corbynism since 2015
