

Activity: An Introduction

Students demonstrate an understanding of compound probability through simple events based on the probability of the first event occurring by applying the principle of independence. The set of outcomes for the first event is described by using the words "independent," "mutually exclusive" or "not." The second event is described by using the words "and" or "or" to describe the joint occurrence of the two events. The probability of the joint occurrence is calculated by using the words "and" or "or" to describe the joint occurrence of the two events.
