Method Statement For Steel Frame:

Management of Construction Projects Brian Cooke,2014-10-24 Construction Management is a wide ranging discipline but ultimately it is a demanding hands on discipline concerned with the management of people plant and materials all mobilised to complete a building project safely on time on budget and to the client s satisfaction Management of Construction Projects is a highly illustrated series of case studies based on seven live construction management projects demonstrating the very practical nature of managing projects The detailed case studies cover a variety of construction projects varying in value from 1million to 117 million including a major inner city office block a portal framed factory unit a university refurbishment project a superstore car park and a new school building The case studies emphasise detailed on site management procedures and identify a predominantly functional approach to managing projects A number of related chapters covering practical and theoretical aspects of construction management support and illustrate the individual case studies With a strong emphasis on the practical nature of the subject Management of Construction Projects is an ideal introduction to the subject for all students on construction and related degree and diploma programmes It will be of particular interest to students preparing for the CIOB EPA programme and the new NVQ courses at level 4 and 5 in construction management

Introduction to Health and Safety in Construction Phil Hughes,Ed Ferrett,2012-09-10 This NEBOSH endorsed textbook is matched to the latest syllabus of the National Certificate in Construction Safety and Health Within the construction industry the need for specialist health and safety training is high due to the high risks involved This is reflected in recent legislation such as CDM 2007 and explains the consistent demand for courses and learning materials The text is easy to read highly illustrated in full color and supported with checklists report forms and record sheets used currently in the industry Students are supported with end of chapter questions a study skills chapter and specimen assignments including specimen answers As NEBOSH actively grow their qualifications internationally demand for this book and it s sister titles continues to increase overseas High growth markets are the Middle East Malaysia India and China

FCS Civil & Construction Technology L4 ,2009
Building Production Management Techniques David R. Moore,Douglas J. Hague,2014-07-30 Building Production Management Techniques provides an innovative approach to dealing with the universal problems of time cost and quality of construction projects The book provides an introduction to a number of management techniques that can be applied to the problems of production presented by the diverse heavy large and geographically distributed products typical of construction everywhere As well as recognised and tried and tested management techniques the authors have introduced a number of techniques which may not have been considered by the construction industry to date
