**Demystifying the World Economic Development** Justin Yifu Lin, Caihui Fu, 2024-10-08. Taking the new structural economics as the theoretical tools, this book obtains the maximum understanding of the history, development, current situation and trend of the change of world economic structure as well as China's role in its development and its underlying laws and policies. It analyzes the polarization between the rich and poor for countries worldwide and provides a way for them to achieve common prosperity. The world is going through a new round of major transformation. Profound adjustment has been made in international economy, science, culture, security and politics, and the international development environment is undergoing profound changes. In this context, this book profoundly and systematically explains the underlying economic transition logic of world development and the general trend of China's relationship with the world and presents the entire process of world economic development. Readers who pay close attention to the development of the world economy, China's economic development and China's role in the world economy will find this book very fascinating.      **The Impact of Information on**

**Modern Humans** Elena G. Popkova, 2018-03-06. This book features contributions from various spheres of socio-humanitarian sciences presented at the scientific and practical conference on Humans as an Object of Study by Modern Science, which took place in Nizhny Novgorod, Russian Federation, on November 23-24, 2017. The conference was organized by Kozma Minin, Nizhny Novgorod State Pedagogical University, and the non-profit organization Institute of Scientific Communications. Presenting the results of multidisciplinary studies as well as new approaches, the target audience of the book includes postgraduates, lecturers at higher educational establishments, and researchers studying socio-humanitarian sciences. The complex study of humans by representatives of various socio-humanitarian sciences, philosophy, pedagogics, jurisprudence, social sciences, and economics allows a comprehensive concept of the field to be developed. Selecting humans as an object of research opens wide possibilities for studying various issues related to their activities while considering humans within multiple sciences means that the methods of induction and deduction can be combined to achieve precise results. This book includes the results of leading scientific studies on the following key issues: establishment of an information economy under the influence of scientific and technical progress; new challenges and opportunities in information and communication.
