

## 1 Policy Statement

[Council Name] will establish specific requirements for protecting information and information systems against unauthorised access.

[Council Name] will effectively communicate the need for information and information system access control.

## 2 Purpose

Information security is the protection of information against accidental or malicious disclosure, modification or destruction. Information is an important, valuable asset of [Council Name] which must be managed with care. All information has a value to the Council. However, not all of this information has an equal value or requires the same level of protection.

Access controls are put in place to protect information by controlling who has the rights to use different information resources and by guarding against unauthorised use.

Formal procedures must control how access to information is granted and how such access is changed.

This policy also mandates a standard for the creation of strong passwords, their protection and frequency of change.

## 3 Scope

This policy applies to all [Council Name] Councillors, Committees, Departments, Partners, Employees of the Council (including system support staff with access to privileged administrative passwords), contractual third parties and agents of the Council with any form of access to [Council Name's] information and information systems.

## 4 Definition

Access control rules and procedures are required to regulate who can access [Council Name] information resources or systems and the associated access privileges. This policy applies at all times and should be adhered to whenever accessing [Council Name] information in any format, and on any device.

## 5 Risks

On occasion business information may be disclosed or accessed prematurely, accidentally or unlawfully. Individuals or companies, without the correct authorisation and clearance may intentionally or accidentally gain unauthorised access to business information which may adversely affect day to day business. This policy is intended to mitigate that risk.

Non-compliance with this policy could have a significant effect on the efficient operation of the Council and may result in financial loss and an inability to provide necessary services to our customers.

**Information Security Policies, Procedures, and Standards** Douglas J. Landoll, 2017-03-27 Information Security Policies Procedures and Standards A Practitioner's Reference gives you a blueprint on how to develop effective information security policies and procedures It uses standards such as NIST 800 53 ISO 27001 and COBIT and regulations such as HIPAA and PCI DSS as the foundation for the content Highlighting key terminology policy development concepts and methods and suggested document structures it includes examples checklists sample policies and procedures guidelines and a synopsis of the applicable standards The author explains how and why procedures are developed and implemented rather than simply provide information and examples This is an important distinction because no two organizations are exactly alike therefore no two sets of policies and procedures are going to be exactly alike This approach provides the foundation and understanding you need to write effective policies procedures and standards clearly and concisely Developing policies and procedures may seem to be an overwhelming task However by relying on the material presented in this book adopting the policy development techniques and examining the examples the task will not seem so daunting You can use the discussion material to help sell the concepts which may be the most difficult aspect of the process Once you have completed a policy or two you will have the courage to take on even more tasks Additionally the skills you acquire will assist you in other areas of your professional and private life such as expressing an idea clearly and concisely or creating a project plan
