and magazine racks in pharmacies and airports overflow with periodicals that feature parenting advice. However, almost none of these is evidence based. The Handbook of Parenting is Period. Each chapter has been written to be read and absorbed in a single sitting and includes historical considerations of the topic, a discussion of central issues and theory, a review of classical and modern research, and forecasts of future directions of theory and research. Together, the five volumes in the Handbook cover Children and Parenting, the Biology and Ecology of Parenting, Being and Becoming a Parent, Social Conditions and Applied Parenting, and the Practice of Parenting. Volume 5, The Practice of Parenting, describes the nuts and bolts of parenting as well as the promotion of positive parenting practices. Parents meet the biological, physical, and health requirements of children. Parents interact with children socially. Parents stimulate children to engage and understand the environment and to enter the world of learning. Parents provision, organize, and arrange their children's home and local environments and the media to which children are exposed. Parents also manage child development vis vis childcare, school, the circles of medicine and law, as well as other social institutions through their active citizenship. The chapters in Part I on Practical Parenting review the ethics of parenting, parenting and the development of children's self-regulation, discipline, prosocial and moral development, and resilience, as well as children's language, play, cognitive and academic achievement, and children's peer relationships. The chapters in Part II on Parents and Social Institutions explore parents and their children's childcare activities, media, schools, and healthcare, and examine relations between parenthood and the law, public policy, and religion and spirituality.

The Cambridge Handbook of Parenting Amanda Sheffield Morris, Julia Mendez Smith, 2022-12-15. Parenting is a critical influence on the development of children across the globe. This handbook brings together scholars with expertise on parenting science and interventions for a comprehensive review of current research. It begins with foundational theories and research topics, followed by sections on parenting children at different ages, factors that affect parenting such as parental mental health or socioeconomic status, and parenting children with different characteristics such as depressed and anxious children or youth who identify as LGBTQ. It concludes with a section on policy implications, as well as prevention and intervention programs that target parenting as a mechanism of change. Global perspectives and the cultural diversity of families are highlighted throughout. Offering in-depth analysis of key topics such as risky adolescent behavior, immigration policy, father engagement, family involvement in education, and balancing childcare and work, this is a vital resource for understanding the most effective policies to support parents in raising healthy children.
