Michaelsen, Dean X. Parmelee, Ruth E. Levine, Kathryn K. McMahon, 2023-07-03 Education in the health professions is placing greater emphasis on active learning learning that requires applying knowledge to authentic problems and that teaches students to engage in the kind of collaboration that is expected in today's clinical practice Team Based Learning TBL is a strategy that accomplishes these goals It transforms passive lecture based coursework into an environment that promotes more self directed learning and teamwork and makes the classroom come alive This book is an introduction to TBL for health profession educators It outlines the theory structure and process of TBL explains how TBL promotes problem solving and critical thinking skills aligns with the goals of science and health courses improves knowledge retention and application and develops students as professional practitioners The book provides readers with models and guidance on everything they need to know about team formation and maintenance peer feedback and evaluation processes and facilitation and includes a directory of tools and resources The book includes chapters in which instructors describe how they apply TBL in their courses The examples range across undergraduate

science courses basic and clinical sciences courses in medical sports medicine and nursing education residencies and graduate nursing programs The book concludes with a review and critique of the current scholarship on TBL in the health professions and charts the needs for future research *Clinical Reasoning in the Health Professions E-Book* Joy Higgs,Gail M. Jensen,Stephen Loftus,Nicole Christensen,2018-10-15 Clinical reasoning lies at the core of health care practice and education Clinical Reasoning in the Health Professions therefore occupies a central place in the education of health professionals the enhancement of professional decision making of individuals and groups of practitioners with their clients and research into optimal practice reasoning All chapters updated and 20 new chapters added Concrete examples cases and vignettes were added to bring discussions to life for the reader Reflection points strategically placed to assist readers to extend their insights and build learning from their own practical experiences and theoretical knowledge Devices of particular value to reflective practitioners and educators All chapters updated and 20 new chapters added Concrete examples cases and vignettes were added to bring discussions to life for the reader Reflection points strategically placed to assist readers to extend their insights and build learning from their own practical experiences and theoretical knowledge Devices of particular value to reflective practitioners and educators *Innovative Teaching Strategies in Nursing and Related Health Professions* Bradshaw,Beth L. Hultquist,2016-07-29 Innovative Teaching Strategies in Nursing and Related Health Professions Seventh Edition details a wealth of teaching strategies focusing on incorporating technology into the classroom including the use of Web 2 0 technologies like blogs and podcasts Chapters on blended learning and study abroad programs are featured enabling students to gain a more diverse and increased global perspective Highlighting innovative teaching techniques for various learning environments and real world illustrations of the strategies in use this text goes beyond theory to offer practical application principles that educators can count on The Seventh Edition includes two new chapters Teaching through Storytelling and Giving and Receiving Evaluation Feedback *Clinical Reasoning in the Health Professions* Joy Higgs,Mark A Jones,Stephen Loftus, PhD, MSc, BDS,Nicole Christensen,2008-02-14 Clinical reasoning is the foundation of professional clinical practice Totally revised and updated this book continues to provide the essential text on the theoretical basis of clinical reasoning in the health professions and examines strategies for assisting learners scholars and clinicians develop their reasoning expertise key chapters revised and updated nature of clinical reasoning sections have been expanded increase in emphasis on collaborative reasoning core model of clinical reasoning has been revised and updated

**Entrustable Professional Activities and Entrustment Decision-Making in Health Professions Education** Olle ten Cate,Vanessa C. Burch,H. Carrie Chen,Fremen Chihchen Chou,Marije P. Hennis,2024-10-29 This book discusses the ins and outs of a new approach to competency based education in the education and training of health professionals including doctors and medical specialists but also nurses dentists pharmacists veterinarians physiotherapists and others Embedded in a conceptual discussion of what competence in health professionals means the book discusses theoretical foundations of trust

and entrustment of trainees with the practice of patient care tasks It elaborates the implications for identifying the objectives of training formulated as entrustable professional activities EPAs for the associated curriculum development for assessment of trainees in the clinical workplace for faculty development and for the management of large scale change in health professions education In the past decade EPAs have been proposed piloted or implemented in all sectors of health professions education and in countries across all continents Yet there is a widely felt desire for a better understanding of all related concepts This text was written with teachers educational managers educational scholars and health profession trainees in mind The book is the result of a collaboration of fifty highly engaged authors all actively involved in their own projects and studies around EPAs and workplace based assessment as teachers developers and managers All chapters have been critically read and commented on by internal and external reviewers making this work a state of the art document about the topic
