EDUCATING *for* CHARACTER

Increasingly, educators at colleges and universities are recognizing the importance of educating for that elusive thing called character. But their efforts are often piecemeal—a service learning program here, a residential contract there. Here's what a comprehensive approach to character education might look like.

CHARACTER EDUCATION is a hot topic, widely discussed in academic, political, and lay arenas. The tragic murders at Columbine High School merely underscore what most educators already recognize, that our schools are not adequately serving the moral development needs of our society and citizens. Moreover, the efforts that are being undertaken are devoted mostly to elementary and secondary school character education, with relatively little attention paid to character on U.S. college campuses. The Character Education Partnership, the predominant advocacy organization for character education in the United States, for example, has chosen not to focus on postsecondary applications even though it supports such efforts in principle. This is not to say that nothing is being done at colleges and universities, but it is our contention that there is not enough attention paid to character development

in this nation's institutions of higher learning—either on the part of campus educators or the general public.

There are many reasons for this. Many faculty are hesitant to influence student character, and students are often resistant to such attempts. Those in higher education often balk at what they may view as tampering with students' morality. To these objections we offer the

Educating Character Through Stories David Carr,Tom Harrison,2015-01-14 What could be the point of teaching such works of bygone cultural and literary inheritance as Cervantes Don Quixote and Shakespeare s The Merchant of Venice in schools today This book argues that the narratives and stories of such works are of neglected significance and value for contemporary understanding of human moral association and character However in addition to offering detailed analysis of the moral educational potential of these and other texts the present work reports on a pioneering project recently pursued by the Jubilee Centre for Character and Virtues concerned precisely with the use of these and other stories for moral and character education in schools The success of the Knightly Virtues project is an inspiring story in its own right and should therefore be of enormous interest to all schools teachers and parents rightly concerned with this all important aspect of their children s educational development

Character Matters Thomas Lickona,2004-02 The author introduces his Character Education program designed to give parents and teachers the essential tools and strategies for raising responsible

Character Education Edward F. DeRoche, Mary M. Williams, 2001 Contemporary schools require far more than just the three R's. Beyond the books and tests, educational facilities are expected to produce members of society with integrity as well. Character education is an abstract idea that many educators, both teachers and administrators, have a difficult time implementing and too often it gets left out of the curriculum. How do school personnel then instill values of good character in students and as an administrator how do you spread these values to the entire school? DeRoche and Williams provide school leaders with an effective road map, touring schools that have achieved success. The authors divide the reader's journey through reform efforts into several tour stops, beginning with a review of the character education framework, passing through subjects such as school climate, core values, training personnel, forming relationships, and concluding with guidelines for evaluation. Each stop contains a list of helpful articles or books, as well as valuable Internet resources. The conclusion of the journey is ultimately the responsibility of school leaders, but this book will give you a head start. *An Integrated Approach to Character Education* Timothy Rusnak, 1998 This book proposes an effective, action-oriented way of addressing students' values and character growth. The contributors emphasize combining three vital aspects of teaching and learning: thinking, feeling, and acting. Contributing authors address the principles that form the integrated approach to character education. Two chapters are devoted to each principle, with a practitioner and a research scholar offering a balanced view. Real-world examples help translate the six key principles into an integrated character education program. Character education is a part of every subject. Integrated character education is action education. A positive school environment helps build character. Character development is encouraged through administrative policy and practice. Empowered teachers promote character development. The school and community are vital partners in developing character. The information in this book can help you teach your students to: Feel and show empathy for others; self-esteem; Respect others' rights; Develop and use self-discipline; Recognize their own responsibilities. This book shows what you can do to promote character growth in students and teach them how to know right from wrong. An integrated approach to teaching character education will make all the difference in the way your students think, feel, and act. *Teaching Character Education Through Literature* Karen E. Bohlin, 2005 This book shows how secondary and post-secondary teachers can help students become more responsive to the ethical themes and questions that emerge from the narratives they study. It helps teachers to integrate character education into the classroom by focusing on a variety of ways of drawing instructive insights from fictional life narratives. The case studies and questions throughout are designed to awaken students' moral imagination and prompt ethical reflection on four protagonists' motivations, aspirations, and choices. The book is divided into two parts. The first provides a theoretical approach, while the second features case studies to apply this approach to the study of four literary characters: Sydney Carton from *Tale of Two Cities*; Jay Gatsby from *The Great Gatsby*; Elizabeth Bennet from *Pride and Prejudice*; Janie Crawford from *Their Eyes Were*

Watching God The questions ideas and approaches used in these case studies can also be applied to protagonists from other narrative works in the curriculum
