Bearing Sin as Church Community Hyun Joo Kim,2022-07-28 Hyun Joo Kim claims that Bonhoeffer transforms and reconstructs the Augustinian doctrine of original sin by shifting the hamartiological premise from the doctrine of God to the doctrine of the church based on his Lutheran resources In Bonhoeffer s view Augustine s doctrine of original sin does not fully relate the doctrine of sin to the responsibility of the saints In order to reform Augustinian hamartiology Bonhoeffer appropriates Augustine s notion of the church as the whole Christ totus Christus which is located in Augustine s ecclesiology Kim explicates how Augustine relates his epistemological premises in his Christianized Platonism to his formulation of the doctrine of original sin and examines how Luther s Christocentric standpoint transforms Augustine s anthropology and ultimately leads Luther to his relational hamartiology Kim contends that Bonhoeffer s later hamartiology and ethics contain the most distinctive characteristics of Bonhoeffer s doctrine of sin in that he not only incorporates both the

active and passive dimensions of sin but also intensifies his continuing notion of vicarious representative action towards the church community

Epicurus and His Influence on History Ben Gazur,2023-06-01 How should we live In ancient Greece one man came up with a pleasingly simple answer to this question The philosopher Epicurus taught his followers that pleasure and contentment were the aims of the good life For hundreds of years Epicureanism was one of the dominant schools of philosophy But by the 6th century it had all but disappeared Discovering how and why Epicureanism was driven from philosophy and public discourse reveals much about how Western thought developed Despite attempts to erase him the lessons of Epicurus have been recovered from the mists of time and the ashes of Vesuvius How he was restored to his place in history is a story of brilliant Renaissance scholars chance discoveries and a hunger for intellectual freedom This new biography of Epicurus reveals the life of Epicurus and traces how his teachings have influenced thinkers across time Epicurus still has much to teach us about friendship happiness and our place in the world

Old Norse Religion in Long-term Perspectives Anders Andrén,2006-01-01 The study of Old Norse Religion is a truly multidisciplinary and international field of research The rituals myths and narratives of pre Christian Scandinavia are investigated and interpreted by archaeologists historians art historians historians of religion as well as scholars of literature onomastics and Scandinavian studies For obvious reasons

these studies belong to the main curricula in Scandinavia but are also carried out at many other universities in Europe the United States and Australia a fact that is evident to any reader of this book In order to bring this broad and varied field of research together an international conference on Old Norse religion was held in Lund in June 2004 About two hundred delegates from more than fifteen countries took part The intention was to gather researchers to encourage and improve scholarly exchange and dialogue and Old Norse religion in long term perspectives presents a selection of the proceedings from that conference The 75 contributions elucidate topics such as worldview and cosmology ritual and religious practice myth and memory as well as the reception and present day use of Old Norse religion The main editors of this volume have directed the multidisciplinary research project Roads to Midgard since 2000 The project is based at Lund University and funded by the Bank of Sweden Tercentenary Foundation The First Humans Frederick E. Grine, John G Fleagle, Richard E. Leakey, 2011-02-12 There are some issues in human paleontology that seem to be timeless Most deal with the origin and early evolution of our own genus something about which we should care Some of these issues pertain to taxonomy and systematics How many species of Homo were there in the Pliocene and Pleistocene How do we identify the earliest members the genus Homo If there is more than one Plio Pleistocene species how do they relate to one another and where and when did they evolve Other issues relate to questions about body size proportions and the functional adaptations of the locomotor skeleton When did the human postcranial Bauplan evolve and for what reasons What behaviors and what behavioral limitations can be inferred from the postcranial bones that have been attributed to Homo habilis and Homo erectus Still other issues relate to growth development and life history strategies and the biological and archeological evidence for diet and behavior in early Homo It is often argued that dietary change played an important role in the origin and early evolution of our genus with stone tools opening up scavenging and hunting opportunities that would have added meat protein to the diet of Homo Still other issues relate to the environmental and climatic context in which this genus evolved A Text-book of Human Physiology Leonard Landois, 1892 *The Varieties of the Human Species* Giuseppe Sergi, 1894 **A System of Human Anatomy, Including Its Medical and Surgical Relations: Organs of sense, of digestion, and genitourinary organs** Harrison Allen, 1883 *Current Encyclopedia, a Monthly Record of Human Progress*, 1902
